1 Цель работы

Целью данной лабораторной работы является приобретение навыков работы с собственным сайтом (добавление собственных достижений)

2 Выполнение лабораторной работы

1. Добавил информацию о навыках. (рис. [2.1])

```
- block: features
  content:
    title: Skills
    items:
      - name: Playing musical instruments
        description: 95%
        icon: r-project
        icon_pack: fab
      - name: Photography
        description: 80%
        icon: chart-line
        icon_pack: fas
      - name: Singing
        description: 90%
        icon: camera-retro
        icon_pack: fas
```

Рис. 2.1: Добавление информации о навыках

2. Добавил информацию об опыте. (рис. [2.2])

```

- block: experience
  content:
    title: Experience
    # Date format for experience
    # Refer to https://wowchemy.com/docs/customization/#date-format
    date_format: Jan 2006
    # Experiences.
    # Add/remove as many `experience` items below as you like.
    # Required fields are `title`, `company`, and `date_start`.
    # Leave `date_end` empty if it's your current employer.
    # Begin multi-line descriptions with YAML's `|2-` multi-line prefix.
    items:
      - title: Studying
        company: RUDN University
        company_url: 'https://eng.rudn.ru/'
        company_logo: org-gc
        location: Moscow
        date_start: '2022-09-01'
        date_end: ''
        description: |2-
          Responsibilities include:

          * Studying Mathematical subjects
          * Learning IT-technologies
          * Developing my personal website
      - title: Music
        company: Gnesin Academy
        company_url: 'gnesin-academy.ru'
        company_logo: org-x
        location: Moscow
        date_start: '2020-09-01'
        date_end: '2022-05-31'
        description: Piano department

```

Рис. 2.2: Добавление информации о навыках

3. Добавил информацию о достижениях. (рис. [2.3])

```

design:
  columns: '2'
- block: accomplishments
  content:
    # Note: `&shy;` is used to add a 'soft' hyphen in a long heading.
    title: 'Accomplish&shy;ments'
    subtitle:
    # Date format: https://wowchemy.com/docs/customization/#date-format
    date_format: Jan 2006
    # Accomplishments.
    # Add/remove as many `item` blocks below as you like.
    # `title`, `organization`, and `date_start` are the required parameters.
    # Leave other parameters empty if not required.
    # Begin multi-line descriptions with YAML's `|2-` multi-line prefix.
    items:
      - certificate_url: https://www.iversity.org
        date_end: '2023-04-01'
        date_start: '2023-03-25'
        description: Course on the history of Russia
        organization: RUDN University
        organization_url: 'https://eng.rudn.ru/'
        title: History course
        url: ''
      - certificate_url: https://sso.openedu.ru
        date_end: '2023-01-14'
        date_start: '2022-12-01'
        description: Linear Algebra course
        organization: HSE
        organization_url: https://www.hse.ru
        title: Mathematics course
        url: ''

```

My last week was full of studying. I prepared for test on discrete mathematics and also did laboratory work on operating systems. So the last week was quite hard, but interesting.

Markdown is a lightweight markup language that describes how text should look on a page. HTML is another example of a markup language. Markdown is a style of writing documents that makes it easy to define what the content should look like. It describes headers, text styles, links, lists and so much more.

Markdown is used in documentation, articles, and notes and can even be used to build a webpage. If you use GitHub, you'll be familiar with the "readme.md" files that show up in the root of a repository. That "md" stands for markdown. You can even create a readme on your GitHub profile to customize your GitHub profile page.
